Nguyễn Kỳ Thịnh

Frontend Web Developer

From August, 2019. I attended the Front-End Web Development Course of Iviettech Center. Invited to join my friend's projects as a front-end developer, I gained a little experience of working in this area. However, it is not enough to become a real developer, I am currently looking for a job or an internship as a front-end developer.

Skills

- Design responsive web with @media or bootstrap4 farmework,
- Convert PSD to HTML5/CSS3 file
- AJAX with XMLHttpRequest, Axios module or fetch api
- Using chrome tool to view, code or debug html/js progame
- Using git to commit/push/pull/ code to github

Some my project

- Email and phone number form/ training project/ 
- My Curriculum Vitae/ personal project / 

Description:Using Bootstrap4 creat layout,I make AJAX with axios module on click event. With this You can show or hide a part of web page

Source code:<https://github.com/NguyenKyThinh94/MyCV>

- Website manages automative fuel station
